

PowerTrack II™ COMMANDER

Quickly and accurately quantify muscle strength and identify areas of weakness with the PowerTrack II.

- ▶ Establish baselines and monitor progress
- ▶ Quantify bilateral strength differences
- ▶ Identify patterns of weakness
- ▶ Provides objective measure of strength
- ▶ Axis compensation for off-center placement

Product Highlights

- ▶ Automatically records peak force and calculates CV and bilateral strength deficits
- ▶ PowerTrack II's thin profile improves stability during tests and "Axis Compensation" circuitry guarantees 99% accuracy for off center placement
- ▶ PowerTrack II's innovative pop-in "quick connect" system makes changing test pads faster and easier

Number of tests stored:	1-40
Tests bilaterally:	Yes
Tests unilaterally:	Yes
Number of repetitions per test:	1-4
Audible cues:	Yes
Load cell capacity:	125 lbs.
Automatic coefficient of variation calculations (CV):	Yes
Automatic bilateral deficit calculation:	Yes
Threshold settings:	1, 3, 5, 10, or 20 lbs.
Unit of measure (pounds default):	lb. or N.
Test times:	Untimed
Allows for specific test re-testing:	Yes
Print options:	Yes
Upgrades to Tracker Legacy computerized testing without modification:	Yes
Accessories:	Protective case, flipchart, worksheets, two test pads and manual

- 1 Test number
- 2 Repetition number
- 3 Active "mode" for testing or reviewing data
- 4 Side being tested
- 5 Real-time force on dynamometer shown in fractions of a pound or newtons
- 6 Bilateral comparison

Optional **Downloader Software and Adapter** downloads data from your Commander Console into a computer text file for quick printing or easy inclusion into your documentation software.

Tracker™ MDE Software option allows you to document findings, track progress and quickly print reports for all Commander products.

- ▶ Normative comparisons
- ▶ CV calculations
- ▶ AMA validity for spine ROM
- ▶ Bilateral comparisons
- ▶ Document sensory dermatomes, orthopedic tests, deep tendon reflexes
- ▶ Score outcomes questionnaires
- ▶ Comprehensive intake section
- ▶ Optional AMA-licensed Impairment Module
- ▶ More
